

Energy Conservation | Emissions Reduction | Intelligence | Automation

Light PM Motor

Product Spec

Series T ECO 8

Max. Power 7.5kW

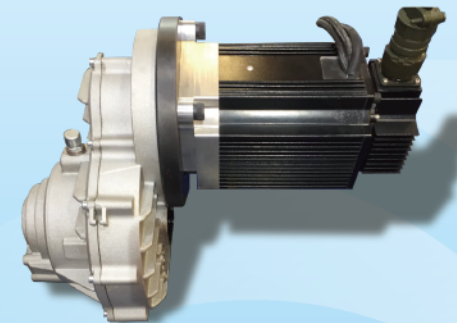

Max. Speed 0~8,000rpm

Voltage 48Vdc / 60Vdc

Cooling Air (0.7m/sec)

Dimensions Ø132*158 mm

Protection Class IP55 dust- and water-proof

Energy Conservation | Emissions Reduction | Intelligence | Automation

Light PM Motor

Product features and advantages

- ▶ High-efficiency, high-output direct-current electric machine Low vibration and low noise
- ▶ Case with high-strength aluminum-alloy frame, strengthened rigidity, high reliability
- ▶ IP55 dust- and water-proof, high environmental endurance, applicable in various special environments
- ▶ Automatic wire-winding technology and over 90% space filling factor for mass production
