

PV cell plus PSC E-house module

PV cell plus PSC E-house module

Introduction to program

20-feet container
(250~1,000kWh/container)

20-feet container

40-feet container
(1,000~2,500kWh/container)

40-feet container

PV cell plus PSC E-house module

Introduction to program

Features

- ✓ Container-type design
- ✓ Complete delivery test, capable of whole-set transport to site
- ✓ Convenient mobility
- ✓ Closed type, operating safety

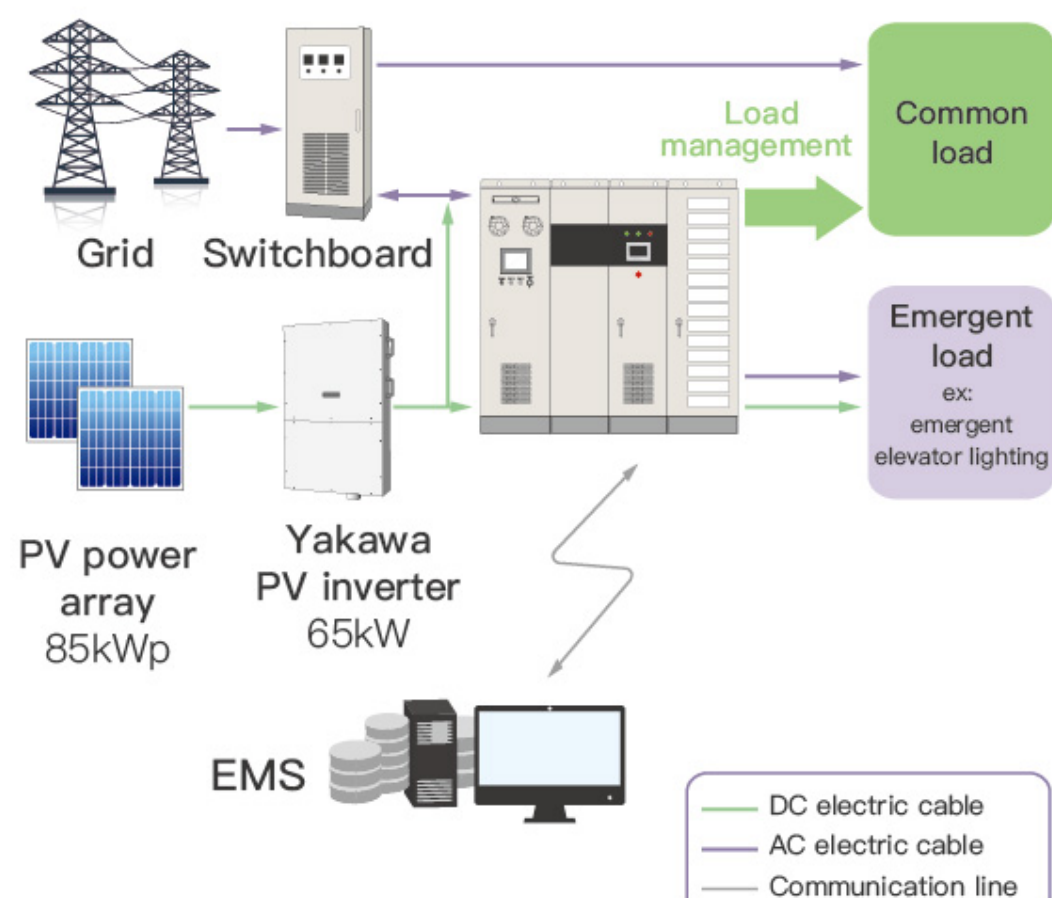

Emergent on-site disaster relief, high mobility

PV cell plus PSC E-house module

Introduction to program

Integrated PV power generation,
reduction of power-consumption
power contract

Integrated PV power generation,
emergent power supply during
disaster
