# PV power system

## Solution introduction

Rooftop type

Ground-mounted type

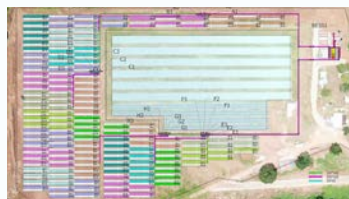

# PV power system

## Service introduction

### Site survey

Based on customer's site, carry out site survey and layout, offering optimal layout of PV power system.

### Layout

### Equipment Purchase

Provide high-efficiency PV modules and power equipment with high weatherability, in addition to conduct rapid installation.

### Construction

### Maintenance

Provide regular maintenance during warranty period, to maximize the efficiency of power-generation.

## Case study

Installation of PV power system at TECO's Guanyin plant

Playing of film
